# The Amazing Time Travelling Adventures of Professor McGinty in Ancient Greece

- 1) Invent a time traveller. Draw a picture to show what your time traveller looks like. Give your time traveller a name and label your picture to show any special features or gadgets your time traveller has been given.

- 2) Find out about a period of time in history. What did people look like during these times, what clothes did they wear? What were their favourite pastimes? Can you find out any interesting facts about this time in history?

**Hint:** Use books or the internet to research your chosen time period. Use a separate sheet of paper to note down everything you have found out.

**Extension Work:** Write a short story in which you send your time traveller back to the time period you have researched. Include lots of exciting places your time traveller can visit, people they meet, and things that they do. Don't forget to describe how their appearance changed when they arrived in this strange new place.
